## Spider Boy Discovered

*Six years old, with the strength of ten men*

A young boy with spider-like powers has been discovered in Wales.

Six year old Elias was found by his mother, happily climbing the side of their Wembley home, in 'an unnatural way to humans.'

When asked to come down, Elias proceeded to shoot a silk thread from his once ordinary wrists, to sail down smoothly to safety.

Speaking to crowds outside their home, the Ahmads reported that the young boy had been quite normal and just like any other six-year-old, just a day earlier.

Amongst his newfound abilities, other than wall-crawling, are enhanced strength, speed, reflexes, durability,

stamina, healing and agility, as well as an early warning system that alerts Elias about things to watch out for.

Astonished parent, Aminah said, "I don't know how to feel. This is all very exciting, but scary too!"

Elias' father said that he would "Do everything to help his son cope with his new powers and use them for good."

"I woke up like this last Tuesday, but I didn't tell my parents in case they stopped me from having fun!" said Elias.

No other human, to date, has the abilities displayed by Spider-Boy, Elias. Scientists will be investigating how he acquired them, seemingly overnight.

Nobody can guess what the exciting future holds for our young friend.
